

Print Activity

Outcomes: Ratio

Calculate the cost of 12 golf balls:

- | | | |
|-------------------------------|-------------------------------|-------------------------------|
| ①. \$5 each
12 for _____ | ②. 2 for \$6
12 for _____ | ③. 4 for \$10
12 for _____ |
| ④. 3 for \$10
12 for _____ | ⑤. 6 for \$25
12 for _____ | ⑥. \$4 each
12 for _____ |

- ⑦. Which is the highest price for 12 golf balls? _____
- ⑧. Which deal has the cheapest price per golf ball? _____
- ⑨. Complete the chart to show the basketball team's records.

Flyers 6:5 Hoops 7:4 Wings 4:8 Tornado 2:10

Team	Games Played	Won	Lost
Flyers	11	6	
Hoops	11	7	
Wings	12		8
Tornados	12	2	

Write an equivalent ratio that uses smaller numbers:

- ⑩ 10:5 2: _____ ⑪ 3 to 9 1to _____ ⑫ $\frac{3}{6}$ $\frac{1}{}$ ⑬ 16:2 8: _____

Write the ratios in two different ways using the same numbers:

- ⑭ $\frac{3}{6}$ _____ ⑮ 5 to 1 _____ ⑯ 4:5 _____

- ⑰ Now show the ratios from questions 14, 15, and 16 with pictures that show a comparison of balls to bats.
